* **You do not need to purchase a planner** since LVAES will provide middle school students with a planner. This is on the list, however, to emphasize the importance of students keeping track of themselves and their to do lists.

* **Students need to have an iPad-compatible stylus pen** to be able to interact with some of our STEAM lab apps. The best stylus on the market is the Apple Pencil (1st generation for lease-to-own iPads) but is pricey at $99. The Zagg Pro Stylus and Logitech Crayon are alternatives at $69. There are also options on Amazon that may work, such as this one for $31. The most important thing is that the stylus offers palm rejection technology.
